MESSAGE FROM THE DIRECTORS

The École d'Assas is committed to support each student in the acquisition of knowledge and skills in order to obtain the Diplôme d'état (equivalent of a state diploma) of their curriculum.

Our ambition is to **train recognised health professionals** capable of managing complex situations and analysing them to respond effectively to patients' needs and public health issues.

Our **educational goals** are based on:

- Professional development with individual guidance for your project.
- The global discovery of practical knowledge and skills offered by our programs.
- Achieving professional independence and the implementation of skills.
- Compliance with regulations and ethics.

To carry out its objective, the École d'Assas works with **teachers who are highly skilled health care professionals recognised** for their expertise.

The philosophy of the three institutes of the Ecole d'Assas is based on **goodwill and the challenges in training the professionals of tomorrow.**

Jean-Pascal Beaumont (IFPP)

Director of the Institut de Formation en Pédiçurie-Podologie (Institute of Podiatry)

Jean-Jacques Debiemme (IFMK)

Director of the Institut de Formation en Masso-Kinésithérapie (Institute of Physiotherapy)

Danièle Maille (IFE)

Director of the Institut de Formation en Ergothérapie (Institute of Occupational Therapy)

THE **PODIATRIST** PROFESSION

The Podiatrist examines and treats all disorders of the foot.

He prescribes, designs and creates orthopaedic soles to correct and relieve painful conditions, static and dynamic disorders and inequalities in the length of the lower limbs.

The Podiatrist also prescribes certain products imposed by a decree of the Ministry of Health, and suggests exercises for functional rehabilitation.

STUDYING AT IFPP

➤ STRENGTHS

- **A Health Clinic** present within the Institute with more than 3,000 patients treated every year.
- **Partnerships** with the Stade Français, "Être belle pour ne pas pleurer" - Be beautiful...no more tears (for patients with cancer).
- **Special days:** Assas Diabetes, Assas SEP (Multiple Sclerosis) and Assas Geronto (Geriatrics and Gerontology).

➤ ADMISSION

- Through competitive exams: 2-hour written test in biology on the SVT program of 1re (first part of Baccalauréat exams) and terminale S
- Through university with our partner universities. (→ www.ecoledassas.com)
- Through Licence bio (biology degree) or STAPS (science and technique of physical and sports activities).

L'INTERNATIONAL

Since 2009, the **École d'Assas** has been promoting **European and international** mobility of its students and teachers. Through this means, the Institute wishes to generate curiosity about rehabilitation practices in Europe and the rest of the world, promoting a fresh outlook on patient management. Thus, the students of the Institute have the opportunity for internships in China, Vietnam, Japan, the United States, Australia and all over Europe.

École d'Assas

The École d'Assas also participates in the **Erasmus + Program** for Higher Education.

THE **PHYSIOTHERAPIST** PROFESSION

As a rehabilitation specialist, the physiotherapist treats people with musculoskeletal, neuromuscular, cardiovascular, respiratory or psychomotor disorders. He prevents, restores and maintains the altered functional capacities of the patient, thus making it possible to restore or supplement the patient's activities.

On the basis of the patient's clinical medical file and through technical evaluations, he conducts a physiotherapy examination of the patient to define a health care plan and establish a prognosis. He selects the actions and techniques best suited for each patient: infants, elderly persons, sportspersons, musicians, etc.

LEARNIN AT IFMK

➤ STRENGTHS

- **Apprentice training program (CFA)**: IFMK students have the opportunity to pursue training while being **employed** by a health institution. They receive **remuneration** and their **tuition fees** are fully borne by their employer.

- IFMK, in connection with healthcare facilities, enables access to **on-the-job training contracts** and **contracts for educational grants**.

➤ ADMISSION

- Through university, with our partner universities.

THE **OCCUPATIONAL THERAPIST** PROFESSION

The occupational therapist is a rehabilitation specialist who works through medical prescriptions. He contributes to the treatment of motor, neuropsychological disorders, or social problems in people of all ages. He offers technical solutions (useful, creative, recreational) for activities in daily life and professional life, to provide solutions in different areas: communication, furnishing, food, and mobility to help patients regain greater independence on daily life field cover.

He examines the nature of the disability in order to offer personalised assistance. He performs an assessment of the patient's capacity for movement and creates a report on the patient's autonomy: dressing, movement and eating. Based on the identified needs, he establishes an individual program.

The occupational therapist is a health professional working in a multidisciplinary team composed of physiotherapists and podiatrists. He practices in hospitals, clinics, functional rehabilitation centres, residences, medical & social centres, etc.

LEARNING AT IFE

➤ STRENGTHS

- Established **within a day care facility for persons with disabilities**, the Institute has all the facilities adapted for training its students (therapeutic apartment).
- **Changes in society** with the gradual inclusion of persons with disabilities in ordinary situations, thus creating **new perspectives** in professional practice: **Domestic medical systems, connected health services.**

➤ ADMISSION

- Through an examination consisting of 3 written tests of 1 hour each:
 1. Psycho-technical tests,
 2. French: text contraction,
 3. Biology and Physics in 1re (first part of Baccalauréat exams) and terminale S.
- Through university, with our partner universities. (→ www.ecoledassas.com)

(equivalent of a state diploma)
AND EMPLOYABILITY

**OPEN
INTERNATIONALLY**
(internships, Erasmus +)

REQUIREMENT AND GOODWILL, FOR EXCELLENCE !

- + **Expertise** in paramedical teaching since 1936.
- + **Professional** training
- + A **health care clinic** within the institute.
- + Training on an **international** level:
 - Erasmus +: 30 European partners with the option of training in Europe for one or more semesters.
 - Internships abroad including in China, Japan, Australia, the United States, etc.
 - A full week dedicated to international learning: speakers from various countries, with debates clinical and conferences.
- + A **service dedicated to internships**, offering more than 1,500 opportunities within the country, to train students in leading hospitals such as la Pitié Salpêtrière, Raymond Poincaré à Garches, l'Institut Curie and l'Hôpital Cochin.
- + A **specialised resource library** and a full-time professional librarian researcher available to help students in their research work.
- + **Innovative** teaching methodology:
 - Development of activities and research related to sports (partnership with the Stade Français rugby school) and new technologies.
 - Participation in sports events: Paris Marathon, Paris Versailles, 20 kms from Paris ...
 - Connected health services.
- + An **adapted course flow** : no classes on Saturdays.
- + Enriching **student experiences** : tutorials, events, students associations, etc.

ÉCOLE D'ASSAS HELPS YOU CONNECT TO A **NETWORK OF MORE THAN 10,000 ALUMNI,**
OF RECOGNISED HEALTH PROFESSIONALS!

WHAT OUR ALUMNI SAYS

THESE ARE OUR FORMER STUDENTS

"What can I say other than thank you, for this chapter in my life where I experienced the joy of learning!" Nicolas

"Thanks to the École d'Assas for helping us to grow, evolve, and especially to flourish in our future profession." Julie

"A big thank you to the entire Institute and to the whole team of the Longjumeau hospital for their assistance during my program. The tremendous contribution of CFA is what helped me to be where I am now." Louis

"Many thanks to the teachers who have passed on their love for this profession" Aurélie

"3 wonderful years which have changed us forever, passed us by. I cannot thank you enough!" Charlotte

"We have been graduates for 4 days, since Monday, July 3, 2017... and we already miss the Institute!" Margaux and Béatrice

"Thank you Assas and the whole team for these wonderful three years. Your support and encouragement will always be remembered. A stage in my life that will remain special forever." Annabelle

"A big thank you to all the managers of the Ecole d'Assas for helping us through Erasmus. Thank you for your warm and wonderful support." Kevin

"A huge thank you for always being there, always hearing us out, for your constant support and kindness. Thank you. Hoping to see you again someday soon!" Marie

"3 beautiful years and wonderful experiences. This change in program turned out to be the best idea I had!" Mathys
